JB PRODUCTS

YOUR GATEWAY TO SUSTAINABLE DRINKWARE SOLUTIONS

About us

JB Products takes pride in being the world's largest manufacturer of sustainable polycarbonate glasses, providing an exceptional range of eco-friendly drinkware for the HoReCa industry. With over 30 years of experience and a reputation for serving prestigious clientele, JB China has established itself as a trusted manufacturer. Building upon this strong foundation, JB Products Europe aims to be the exclusive global distributor, expanding into new product lines and untapped markets. Our journey began in 2023, as we set our sights on the European and worldwide stage to offer innovative solutions and unparalleled service.

Our Commitment to Customer Service

Customer satisfaction lies at the heart of everything we do. We go the extra mile to exceed expectations and create memorable experiences for our clients. Our strategically located headquarters and showroom in Europe ensure swift and efficient service, catering to the demands of an ever-changing market. As part of our eco-conscious commitment, we maintain a vast inventory of readily available products, guaranteeing prompt deliveries without any delays.

Innovation, Quality & Sustainability

Innovation is the driving force behind JB Products, as we continuously evolve to meet the dynamic needs of the HoReCa industry. Our polycarbonate glasses are the result of cutting-edge technology and a passion for excellence in design. They boast unrivaled durability and shatterproof attributes, ensuring they stand the test of time.

We take pride in our unwavering dedication to sustainability. By crafting our products from eco-friendly materials and eliminating harmful chemicals, we embrace responsibility towards the environment and future generations. Our glasses are fully recyclable, minimizing their ecological footprint and supporting the circular economy.

Our Vision

At JB Products, we envision a world where sustainable solutions are at the forefront of the HoReCa industry. Through innovation, quality, and environmental responsibility, we strive to transform the way people experience drinkware. By nurturing a culture of sustainability, we aim to leave a positive impact on the planet while providing exquisite designs and outstanding functionality.

USE CASES

Unbreakable drinkware made of polycarbonate is well-suited for various areas of usage due to its durability and other advantageous properties. Here are some ideal areas where polycarbonate drinkware shines.

Restaurants and Bars

Polycarbonate drinkware is popular in restaurants and bars due to its durability. It can withstand the fast-paced environment of these establishments, where constant handling, stacking, and cleaning are required.

Family Gatherings

Polycarbonate drinkware is ideal for family gatherings, especially with children present. Its resilience against accidental drops makes it a safer alternative to traditional glassware, reducing the risk of injury.

Outdoor Events

Polycarbonate drinkware is perfect for outdoor gatherings, picnics, barbecues, and camping trips. Its high durability makes it resistant to accidental drops or impacts, ensuring that it remains intact even in rugged environments.

Poolside or Beach

Polycarbonate drinkware is an excellent choice for poolside or beach use. Its resistance to breakage ensures that it won't shatter if accidentally dropped on hard surfaces, reducing the risk of injuries from broken glass.

Festivals and Events

Polycarbonate drinkware is often used at festivals, concerts, and outdoor events where safety and durability are paramount. Its unbreakable nature provides peace of mind and prevents potential hazards.

Healthcare Facilities

Polycarbonate drinkware finds utility in healthcare settings, including hospitals, nursing homes, and clinics. Its durability and chemical resistance allow for frequent cleaning and sterilization, ensuring proper hygiene.

Schools and Institutions

Polycarbonate drinkware is commonly used in educational institutions, such as cafeterias or dormitories, where durability and safety are essential. Its resistance to breakage ensures a long lifespan, reducing replacement costs.

Boating and Marine Applications

Polycarbonate drinkware is favored in boating and marine settings due to its resistance to impacts, UV radiation, and saltwater. It can withstand the harsh conditions encountered on boats, yachts, or cruise ships.

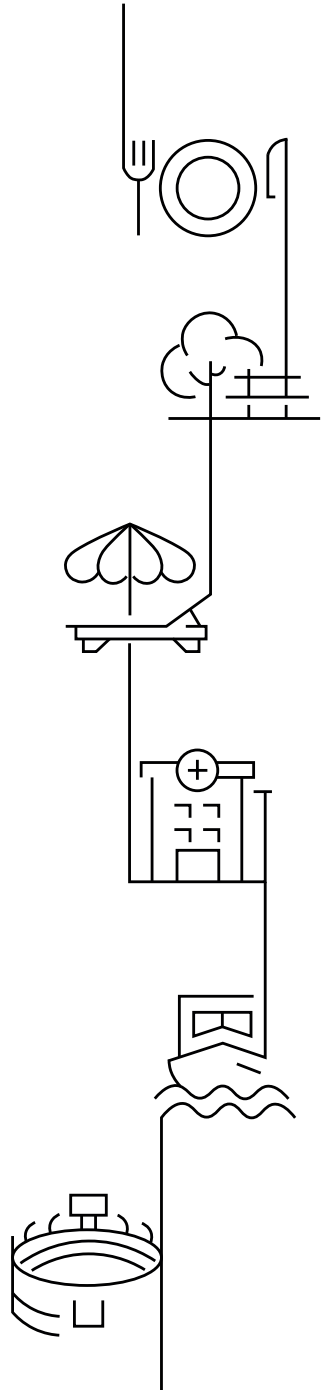

Hospitality Industry

Hotels, resorts, and catering services often choose polycarbonate drinkware for their events or banquets. Its ability to maintain a glass-like appearance while being unbreakable provides an elegant and safe serving solution for guests.

Anywhere Glassware Is Not Suitable

Polycarbonate drinkware is a reliable choice in environments where glassware is prohibited or impractical, such as stadiums, theme parks, or areas with strict safety regulations.

****In summary, polycarbonate drinkware's unbreakable nature makes it highly versatile and well-suited for outdoor events, poolside use, restaurants, hotels, schools, boating, healthcare facilities, festivals, family gatherings, and anywhere traditional glassware may not be suitable.***

Basic Quality

Cost-Effective Yet Exceptional

Looking for practicality without compromising on quality?

Our Basic Quality drinkware offers the perfect solution. Designed to be cost-effective, it embodies simplicity and functionality. Ideal for various settings, it ensures that you enjoy great value without sacrificing quality. Experience the joy of having durable and attractive drinkware at your fingertips.

Key Highlights

**OUR
BRANDS
AND
WHAT
WE DO**

MORLEOS

As the epitome of sophistication, exclusivity and sustainability, Morleos caters to discerning restaurants, luxury hotels, and upscale events. These refined glasses are a harmonious blend of elegance and craftsmanship, making them the perfect choice for establishments seeking a touch of luxury.

ROCO

Roco addresses a wider audience, offering affordable solutions without compromising on quality and sustainability. Ideal for bars, cafes, catering companies, and businesses seeking cost-effective options, Roco glasses feature attractive designs that captivate any setting.

OEM Solutions and Tailor-Made Solutions

In addition to our standard product range, we provide personalized solutions under both the Morleos and Rocco brands. Our OEM Solutions allow you to customize your glassware, enabling you to align it with your unique brand identity. Additionally, our Tailor-Made Solutions offer a collaborative approach to designing and developing custom glassware, perfectly tailored to your individual requirements.

Dishwasher Use

Q: Can I safely put your polycarbonate glassware in the dishwasher?

A: Absolutely! Our polycarbonate glassware is designed to withstand commercial dishwasher use, making it a convenient and time-saving choice for busy Horeca establishments. It maintains its clarity and durability, even after numerous wash cycles. We have got all required testing reports.

Heat Resistance

Q: Can I serve hot beverages in your polycarbonate glassware?

A: Yes, you can! Our polycarbonate glassware is designed to handle a wide range of temperatures, making it suitable for both hot and cold beverages. It offers excellent heat resistance, ensuring your drinks stay at the perfect temperature without warping or cracking.

Polycarbonate as Material

Q: Why choose polycarbonate over other materials?

A: Polycarbonate is the ideal choice for your glassware needs. It combines the elegance of glass with the durability of plastic. It's shatterproof, lightweight, and offers excellent clarity, enhancing the overall drinking experience. Plus, it's eco-friendly and can be recycled, aligning with sustainable practices.

Scratches and Color Change

Q: Will the glasses easily get scratched in regular use?

A: Our polycarbonate glassware is specially designed with scratch-resistant properties, guaranteeing it maintains its pristine condition over time. It may undergo minimal color changes depending on use, but it will consistently uphold its overall durability and quality. Additionally, we offer scratch-resistant series for those seeking extra protection against scratches.
